September, 2018

Dear Families of Mosier School Students,

It is the goal of Mosier Elementary School to provide each student with a safe, engaging and successful educational experience. The staff at MES deeply believes that a successful partnership with families is one of the most important components to our work. We believe that mutual trust and respect between home and school ensures constant and honest communication and helps to ensure the best social and academic growth for all students. We can't wait to establish this connection with you! The success of any school depends on the degree of involvement and support of the parents. We welcome your active participation as volunteers, committee members and visitors.

We value your time and contributions to our school. This handbook is intended to be a resource for the school community, and to offer clarification around major topics or frequently asked questions. Please take a moment to familiarize yourself with this handbook. MES is a special community, and as such there are many unique traditions and special happenings that may arise that are not addressed in the handbook. If there is a concern or question that the handbook does not address, or does not clearly answer, please don't hesitate to contact us.

The Mosier School Staff is dedicated to helping children achieve their fullest academic and social potential. In addition to enabling children to meet their individual goals, we encourage children to be positive members of the school community. We aim to prepare them for future roles as effective members of society with a vision of the world in which they want to live.

Thank you for your continued support,

Paul Goodhind

Principal, Mosier Elementary School

Please note that all references to parents in this handbook equally acknowledge the role and responsibilities of guardians of students who attend this school. In all cases the term parent also refers to guardians.

I. BEGINNING AND END OF SCHOOL DAY

The first bell for students rings at 8:17 a.m.
The Instructional School Day begins at 8:20 a.m.
School is dismissed at 2:55 p.m.

II. SCHOOL/HOME PROCEDURES AND COMMUNICATIONS

EMERGENCY INFORMATION

It is essential that the school have information necessary to contact the home in case of emergency. A form will be sent home at the beginning of the school year. It asks for the following information:

1. Telephone and address (and email if available).
2. Name, telephone and address of persons to contact if you cannot be contacted at home or at work.

Please inform the school of any changes of the above information as they occur. We need this information to provide quick and effective care for your child.

FAMILY INFORMATION

It is helpful to you and your child for the school to know about your family situation and changes as they take place in the family. When we are informed, we can provide appropriate support to your child and also act consistent with the legal status of your family. This information which is voluntary and confidential helps with accurate record keeping and the school's response to your family.

CHILD CUSTODY

It would be very useful for the school to know if a parent or a child's other relatives do not have the same legal rights as accorded the custodial parent (such as taking a child out of school.) This information, and copies of court papers, would help us avoid any difficult situations. Also, please clarify any situations in which a child has two last names. We need to know the legal one and whether to hyphenate the two last names. This information helps with accurate record keeping and the safety of your child.

EARLY DISMISSAL

If you need to take your child out of school before the regular dismissal time, you should send a note with this information. Should an emergency situation arise, you may call the school informing the office of the reason and time. When you arrive, we will call the child to come down to the office. Please do not tell the child to come wait in the office before you arrive as it often means the child misses valuable time in the classroom. No child will be dismissed directly from the classroom. All students must be dismissed from the office. There is a sign-out book in the office. Children will not be allowed to leave school alone for early dismissal.

PARKING

Parents are requested to park in designated places in the school parking lot. Please do not park in front of the school as these are bus lanes and for emergency vehicles only.

PARENT TEACHER ORGANIZATIONS

PTO - The school has an active PTO which meets periodically in the school library. All parents are urged to participate in its meetings and programs. For more information, contact the PTO president at mosierschoolpto@gmail.com

The Mosier School Council is made up of parents, teachers and community representatives who consult with the principal to develop the annual School Improvement Goals. School Council meetings are open to the public.

REPORTING SYSTEM TO PARENTS

Student Performance Reports are provided to all parents. Report cards are sent three times a year: November, March and June. If a teacher feels it necessary or useful, interim reports are sent between the reporting periods can be sent to inform parents of academic progress.

Parent/Teacher Conferences: Conference periods are scheduled in the fall and in the spring. All parents will be given an opportunity to meet with their child's teacher. Appointment notices are sent home prior to the conference dates. However, parents are encouraged to make appointments with teachers at any time that they have some concerns which they would like to discuss. Parents should call the school to request a meeting with the teacher and/or send a note with your child. We ask you to please be mindful that conferences with the classroom teachers are to be scheduled at a mutually convenient time. You can call the school office to make this request of the teacher, leave a voice mail message for the teacher and/or send an email or a note with your child. Teachers cannot be attentive to discussion with you about your child when they have responsibilities to students during the school day, including the morning arrival and dismissal times.

SCHOOL CANCELLATION OR EMERGENCY CLOSING

Included in this booklet, you will find the policy of the South Hadley School System regarding school cancellation for the elementary student level.

STUDENT RECORDS

All custodial parents have the right to see the entire school records of their children unless otherwise restricted by a documented legal situation of the family. Please allow two days for such a request. Copies of information contained in children's records can be provided upon request.

Student records contain summaries of testing, copies of report cards and certain samples of students work. If a child has an education plan, a copy is also kept in the cumulative folder. (Please refer to the last page of this handbook: Summary of Regulations pertaining to Student Records).

Under G.L. c.71, sect. 37L and 603 CMR sect. 23.07(4)(g) school districts are required to transfer student records to a school to which a student has transferred and parental signature for this transaction is not required.

TELEPHONE

Children will not be called to the phone during the school day unless an emergency exists. We will be happy to convey messages promptly. We will also facilitate phone calls when it is necessary for your child to contact you during the school day.

TRANSFERS TO OTHER SCHOOLS

The principal or the child's teacher should be notified if possible at least two weeks prior to a child's transfer to another school, so that a transfer card may be made out and presented to the child or parent on leaving.

Parents may, upon written request, hand carry sealed records. Otherwise, records will be sent upon request from the new school.

III. RULES AND REGULATIONS FOR BUS STUDENTS

Please review these rules with your children.

The school day begins when students enter the school bus, ending when they leave it. During this entire time, students are under the legal jurisdiction of the South Hadley School Department. **The bus driver has the same authority on the bus that a teacher has in a classroom.**

Remember, it is a privilege to ride the school bus. If students' conduct and behavior are not in keeping with the school-wide expectations of being Safe, Respectful, and Responsible. If student behavior endangers the health and safety of fellow riders, this privilege will be taken away temporarily or permanently. (State laws do not require transportation if the student's conduct jeopardizes the health and safety of other passengers.)

The following rules and regulations are to serve as guidelines:

1. While waiting at the designated bus stop, students should refrain from destructive or disturbing behavior. They should stay off the traveled portions of the street or highway!
2. Students should enter the bus in an orderly fashion and go directly to a seat, remaining there until the destination has been reached. Departure from the bus should also be in an orderly fashion.
3. Courtesy toward fellow passengers and the bus drivers must be shown and adhered to at all times.

4. There shall be no littering or defacing of the bus.
5. There shall be no obnoxious noise making, swearing, horse play, throwing things, or any other activity which will distract the driver's attention from the road.
6. Students shall keep their hands, arms, and heads inside the bus at all times.
7. In accordance with state laws, there shall be no smoking on school buses. The lighting of matches or other inflammable devices is also prohibited.
8. Students shall not change seats or busses unless given permission to do so by the driver or the principal.
9. The emergency exits are to be used in emergency situations only, under direction of the driver. Safety equipment on any bus is not to be handled except under the driver's direction.
10. In the event of an accident, students should remain calm, following the instructions of the driver immediately and without question. If the driver is incapacitated, the older students aboard should assume charge, proceeding immediately to evacuate the bus in an orderly fashion, making certain that no student is over-looked.

Any questions regarding bus regulations or services should be directed to:
David Gallagher, Assistant Principal, at 538-5077

TRANSPORTATION:

All students living one mile or more beyond the school are eligible for bus transportation. If your child ordinarily takes the bus and will not be doing so on a particular day, you must send a note informing the teacher that the child has your permission for a specific change. Otherwise, the student will be sent home on the bus. Changes in the bus route will be made for child care purposes only. This ruling is for everyone's safety. School of Choice students are not eligible for bus transportation.

Bus Procedures

Bus routes and stops are sent with the opening school year letter in August or can be obtained from the school office. Good safety and conduct must be practiced by all children riding the buses. Infractions of the rules are reported to the Principal with the following potential consequences:

First Offense: Notice of warning sent home.

Second Offense: Notice of warning sent home, parent informed by school plus 1 day suspension of bus privilege.

Third Offense: Notice of warning issued, parent conference held, 3 day suspension of bus privilege.

Fourth Offense: Notice of warning issued, parent conference held, 5 day suspension of bus privilege.

Fifth Offense: Notice of warning issued, parent conference held, additional suspension or permanent expulsion of bus privilege depending on the nature of the offenses.

Depending on the nature of the infraction, the Principal may use administrative discretion to determine the appropriate consequence of an offense.

State laws do not require transportation if the child's conduct jeopardizes the health and safety of others. In case of expulsion from the bus, the parent is responsible for the child's transportation to and from school. Failure to do so could result in legal proceeding in accordance with the attendance statutes of the General Laws of the Commonwealth of Massachusetts.

Transportation Other Than School Bus

Bicycles: Parents who permit students to ride bicycles to school are strongly urged to review bike safety with their children. **Helmets are mandatory by law for all cyclists under the age of 12.** Children are asked not to ride bikes to school after the first snowstorm and not until April 1st as the roads are often wet and slippery. Bikes must be parked in the racks provided and locked. **The school is not responsible for lost or damaged bikes.**

Students are expected to walk their bikes on and off the school premises as a precaution against cars and trucks entering and leaving the school grounds. Riding double and in an otherwise reckless manner are prohibited and will be cause to take away the privilege of riding a bicycle to school.

Parent Transport: Parents who bring their children to school or pick them up at school at the end of the day are asked to park only in designated parking places. A child must have parental permission to go home in the car of another student's family. Students must be dismissed to the parent from the office.

Walkers: Review safety rules with your children. Walk on the sidewalk, cross where there is a crossing guard or within the crossing lines.

Children cannot arrive on the school grounds before 8:05 a.m. as adult supervision does not begin until that time.

VISITORS

All visitors are asked to sign in at the office and to obtain and wear a visitor tag. We need to know when all visitors are in the building for the safety of our children. We ask that parents call ahead so that a teacher knows about a visitation and to make sure that the class is not being tested or on a field trip. We ask you to please be mindful that conferences with the classroom teachers are to be scheduled at a mutually convenient time. You can call the school office to make this request of the teacher, leave a voice mail message for the teacher and/or send a note with your child. Teachers cannot be attentive to discussion with you about your child when they have responsibilities to students during the school day, including the morning greeting and dismissal times.

OBSERVING AT SCHOOL

Parents/caregivers, or other community members who wish to observe classroom instruction must give the school a 48 hour notice and communicate the purpose of the observation to the principal. Photography, and video/audio recording is prohibited without permission from the principal. Copies of notes taken during the observation will be submitted to the principal. The school reserves the right to sanction any classroom observations.

VOLUNTEERS

Volunteers are always needed and welcome to help in the library, in the classroom for special projects, and to serve on committees. If you are interested and would like to assist, please call the school, make your interest known to your child's teacher, or sign up at the PTO meetings. Volunteers must have a processed CORI application before volunteering in the school.

ABSENCE AND TARDINESS

By law, students must attend school daily unless excused by parents for medical or family reasons. It is disruptive to the educational process for a child to arrive late. Please confine medical or other appointments to times which will not keep your child out of school or arriving late. All students who arrive after 8:17 a.m. must be escorted and signed in at the office by an adult. We request that all parents report the child's absence before 9:00 a.m. to the Mosier School Office at (413) 538-5077.

VACATIONS

The scheduled school vacations are listed on the school calendar in this handbook. We strongly encourage you to schedule your vacations during these times and we strongly discourage you from removing your child for family vacation at other times as it interrupts the instruction and continuity of the basic educational program. **HOWEVER, SHOULD A VACATION OCCUR DURING SCHOOL DAYS, PARENTS SHOULD NOT REQUEST HOMEWORK. UPON YOUR CHILD'S RETURN TO SCHOOL, HE/SHE WILL BE EXPECTED TO MAKE UP THE WORK MISSED DURING THE VACATION. IT IS IMPOSSIBLE FOR TEACHERS TO ASSIGN WORK FOR A WEEK OR MORE BECAUSE SO MUCH INSTRUCTIONAL TIME HAS BEEN MISSED.**

HOMEWORK

Homework is designed to be a purposeful practice, reinforcement, or application of classroom teaching. It promotes individual initiative, personal responsibility and self-direction. REMEMBER, homework request for a student who is absent MUST BE MADE FIRST THING IN THE MORNING THROUGH THE OFFICE ONLY.

Homework is an integral part of the educational process. It is assigned at all grade levels on an individual basis according to the needs of the children. This can include everything from written work, both short and long term assignments, as well as book reports, research projects and reading. Homework is mainly to reinforce concepts that have been taught during the school day. Usually, you can expect homework Monday through Thursday. Long-range assignments such as book reports or research projects are also assigned periodically. Teachers will inform parents if their children are falling behind in their assignments. Children benefit from having a specific notebook in which to write homework assignments, a folder in which to keep homework, and a time and place to do homework.

****Please note** that this year, we are again providing a special Homework Folder for all students grades two, three and four. We hope that this will help the students with organization and help families to know where to look for homework and notices. Each student will receive a Homework Folder on the first day of school. It is expected that each student will have the Homework Folder and use it every day. If lost, folders must be replaced at a cost of \$1.00 per folder. A special thank you to the PTO for their support and for funding one Homework Folder per student.

IV. BEHAVIORAL EXPECTATIONS AND DISCIPLINE

CODE OF DISCIPLINE

In accordance with Massachusetts law, the Mosier School has adopted a Code of Discipline. A copy of the Code of Discipline is distributed to every family at the start of the school year as Part II of the Family Handbook and is also available in the school office for review by parents. Please refer to the South Hadley Schools Code of Discipline.

A school must have a safe, respectful and orderly environment and all students are expected to help maintain that kind of atmosphere. At the beginning of the year, rules are reviewed with students and in many classes students help establish rules for their own classrooms. Consequences for disruptive and aggressive behavior include loss of recess, loss of privileges, being sent to the office. An after school detention notice is sent home to the parent to inform them for each instance of misbehavior which requires this consequence. If a student's negative behavior persists, the teacher or principal will contact the parents and request a conference. We ask you to please refer to the Mosier School Code of Discipline, Rules and Regulations for Bus Students and the School Rules.

After School Detention: If it becomes necessary to keep a student after school for continued disruptions. After School Detention will be for a minimum of 30 minutes and a maximum of 60 minutes.

Suspension:

If a student is suspended for serious actions such as violent conduct, vandalism or serious defiance of authority, the principal will notify the home by phone. Please refer to the South Hadley Schools Code of Discipline.

DRESS

We do ask children to come to school wearing clean, comfortable clothing suitable for the weather conditions. Please avoid shoes which do not have good gripping action as our hall floors can get slippery when wet. On physical education days, students should wear sweat pants and tops which allow for movement. Sneakers are required for physical education instruction.

In the winter, students should be sent with a warm jacket, hat, gloves, scarf and waterproof boots. Boots and snow pants are necessary in the winter if students are to play in the snow beyond the area of the blacktop.

“School-Wide Expectations” are discussed in school with students at the beginning of the school year.

V. SCHOOL PROGRAMS, SERVICES AND POLICIES

ART, MUSIC, LIBRARY PHYSICAL EDUCATION, REMEDIATION AND ENRICHMENT

Mosier students participate in essential weekly programs such as physical education, art, music, library and typing. Intervention programs in reading and math are available for students during the school day, and optional enrichment programs including art club, technology club, chorus and math all-stars, are available after school for qualifying students.

CLASSROOM ORGANIZATION

Each student is assigned a homeroom teacher. Some third and fourth grade classrooms are organized in teams in which the students in two classes receive their academic instruction according to academic area from one of the two teachers. Each team organizes their shared areas of instruction somewhat differently. There is flexible grouping for all reading instruction in all classes.

CLASS PLACEMENT

Classrooms are organized heterogeneously. Placement decisions are made using teacher recommendations and information provided from parent feedback forms. A child's academic and social needs are taken into account when placement is made. The final decision rests with the school principal. Parents are not encouraged to ask for specific teachers by name.

HEALTH REQUIREMENTS

All children entering South Hadley Schools are required to have a complete physical examination and to have been immunized against diphtheria, tetanus, whooping cough, measles, mumps and rubella. A tuberculin test is recommended and a lead test is required prior to entering kindergarten.

In accordance with state law, each third grade student must have a completed Interval Health History Form on file. These forms are sent home in September.

An emergency form is sent home annually. It is imperative that the information requested be provided so that a designated person can be contacted by school personnel in the event a child is ill or injured.

The school nurse is on duty daily during school hours to administer first aid relative to illnesses and injuries. By law, the nurse cannot dispense any medication unless a written order from a doctor, nurse practitioner or a dentist is provided. This applies to over-the-counter as well as prescription medications. In addition, written permission for administration of the medication must be provided by a parent or guardian.

Vision screening is conducted annually for all students. Hearing screening is conducted once annually in grades two and three. Written notice is sent to parents of children who fail the testing with recommendation for follow-up.

Parents are requested to inform the school if a child has contracted a contagious

disease. Children being treated for strep infections and pinkeye must be on antibiotic medication for a full twenty-four hours before returning to school. After a child has an elevated temperature it is recommended that parents keep the student home long enough to be sure that the temperature has returned to normal.

HEALTH SERVICES

In addition to first aid and daily emergencies, the school nurse arranges for the following health services:

- ★ Vision and hearing tests: The school nurse sends communications to parents when these services will take place.
- ★ Administration of medication: The school is not allowed to administer medication unless it is accompanied by written permission of the parent, such medication is kept and administered from the school office or health room. It must be in its original container, with the dosage prescribed on it. All medication to be administered by the nurse must have the physician's prescription attached.
- ★ Emergency Response: It is imperative that parents fill out the emergency form sent home annually. This will enable the nurse to contact you or a person responsible for the child in case of illness or an injury.

HOME TEACHER

Teaching services are available for students who are homebound for a medical reason for a long or undetermined time. Contact the principal for further information.

LIBRARY

All classes have the opportunity to visit the library at least once a week for instruction on the use of the library and to select books. Library volunteers are very welcome and needed. In addition to class visits, students are sometimes sent to the library to do research or work on projects. Students are permitted to select two books each week. New books may be selected upon the return of the previous selected books. If a student returns two books, two new books may be selected. If a student returns 1 book, no new selection may be made until all books are returned. Students are responsible to pay for lost books.

LUNCH

A hot lunch and a la carte items are available to students. Students will use a PIN number to pay for lunch. It is recommended that parents pre-pay their child's lunch account as needed. Children who bring their lunch may purchase milk and dessert items. Free and reduced-priced lunches are available. Eligibility forms are sent home at the beginning of the school year.

Please make sure that your children have a lunch or money when they leave in the morning. PLEASE check with your child before he/she leaves home.

SPECIAL SERVICES

Title I: Students who are having difficulty in reading may be eligible for remedial help in that subject. This federally funded program provides additional instruction to children who may benefit. Students are recommended by teachers and assessment data is used to determine eligibility. Parents are informed if their child has been recommended for this program.

School Adjustment Counselor: A School Adjustment Counselor helps students who are having difficulties adjusting to school or having emotional or social problems which are evidenced at school. If you wish to bring your child's needs to the attention of the Counselor, you may call the school and contact Betsy McNamara, School Adjustment Counselor.

Special Education: Services mandated by Chapter 766 and IDEA-504 provide supplemental help to students who have been identified as having needs in any academic subject. They are subject to state and federal eligibility regulations. The Special Education program serves children with moderate to severe needs. Teachers or parents can recommend students to the Principal for evaluation for supplemental help. Referred students are given academic and/or psychological assessments as part of the eligibility determination process. For further information about special education services, please contact Pamela Soderbaum, our special education team leader at psoderbaum@shschools.com.

SCHOOL INSURANCE

School insurance is made available to all children. This insurance is not compulsory. However, if your child is not covered for school accidents by your family insurance, it is wise to take advantage of this plan.

MCAS 2.0. Third and Fourth grade students take grade specific mandated state assessments in the Spring. Individual scores are reported to parents. Group results are reported to the South Hadley School Committee.

VI. CANCELLATION/EMERGENCY CLOSING

I. SCHOOL CLOSURE INFORMATION – Due to Weather Conditions

If weather conditions prior to the start of the school day make closing advisable, busses servicing the schools will be canceled and announcements will be made as early as possible.

- Information is provided to the following media:
 - Television:** Channels 40 and 22
 - Radio:** WHYN (560AM/93FM), WTTT (100.9FM), WHMP (1400AM/99.3FM), WAQY (102FM), WMAS (1450AM/94.7 and 95FM)
- On snowy mornings, the newsrooms at the stations are very busy and errors or omissions can occur. Please check more than one station if you do not hear information about South Hadley Schools on your favorite station.
- When schools are closed for the day, all classes and school activities are canceled.
- We rarely have early closures, because except under the most extreme conditions, we generally believe that children are safer in school than at home where working parents may not be available to supervise them.
- Parents should be aware that we make every effort to maintain timely bus service every day. But, when road conditions are poor or the weather is extremely cold, bus schedules can be disrupted or slowed. We appreciate parents' understanding and flexibility.
- We also appreciate parents' help in protecting children's safety at bus stops by dressing them warmly, keeping children away from icy streets and off slippery snow banks near the road, etc.
- As always, the parent is the final judge regarding whether weather conditions make it unsafe for their children to attend school, ride the bus, drive or walk on any given day.

Delay to the start of the school day

When weather conditions are uncertain, a one/two hour delay in school openings may be announced over the above radio stations. All busses will start their runs one/two hour later than usual and children will be transported home at the regular school closing time. The superintendent will use the schoolmessenger automated system to communicate closures and delays.

II. TOWN-WIDE EARLY/DELAYED DISMISSAL

If worsening weather conditions during the day make it necessary to close schools, announcements to this effect will be made over the radio stations - stating the dismissal time. A reasonable time should be allowed between the announcement and the actual dismissal. The possibility exists that a serious weather condition (i.e., tornado, flash storm, etc.) might warrant a delayed dismissal. The same procedure for Town-Wide Early Dismissal will be followed. It is critical to the safety of your child that you complete and return to the Mosier School office the Early Dismissal Form.

III. INDIVIDUAL SCHOOL CLOSING

If it becomes advisable to close an individual school during the day, due to loss of heat, electricity, etc. The children will be transported from Mosier School to the Middle School or to the High School. Parents may pick up their child at the alternate school or they will be transported home at the regular dismissal time.

Mosier School

Code of Discipline

2018-2019

If you feel you may need translation of the information and/or special accommodations or assistance as a result of a handicapping condition, please call 413-538-5072 (hearing impaired fax to 413-532-6284 through Mass Relay service at 1-800-439-2370) and notify us of your special need.

Si usted necesita alguna adaptacion o asistencia especial debido a algun tipo de minusvalia, por favor llame al telefono 413-538-5072 (fax para personas con deficiencias auditivas 413-532-6284).

PURPOSE AND SCOPE OF THE DISCIPLINE CODE

PURPOSE:

The South Hadley School Department expects all students to conduct themselves in a socially responsible manner in order to encourage an environment, which is educationally sound for all students. Disciplinary measures are used to maintain a safe and stable school environment and to teach students proper respect for the educational setting. Administrators, teachers, and staff are to be role models for students in setting high standards of behavior and thereby promote high standards of behavior for students. It is the responsibility of parents in their teaching, and by their example, to assist their son or daughter in consistent attendance, in the development of good work habits, in fostering appropriate behavior and in encouraging a positive attitude towards school. Parents are additionally responsible for being knowledgeable as to their son or daughter's performance in school. It is the responsibility of the faculty and administration to provide parents with timely information regarding the failure of their son or daughter to maintain consistent attendance, good work habits, appropriate behavior and attitude towards school.

SCOPE:

This discipline code will apply to the school and its grounds and to normal egress to and from school. It shall also apply to all events sponsored by the school department including and is applicable to field trips, extracurricular activities, sports, social events, et cetera.

AUTHORIZED OFFICIALS

The building principal or the principal's designee (i.e., certified staff, assistant principal) shall be responsible for hearing all cases, which may result in a more serious penalty than detention. Depending on the seriousness of the offense, the principal or the principal's designee will determine the level of appropriate action to be taken potentially, including suspensions and expulsions.

ADMINISTRATIVE DISCRETION

Administrative flexibility is required in any disciplinary action to account for individual cases, unusual problems not anticipated nor written in school regulations, and the maintenance of effective control of behavior in a public school. The administration reserves the right to adjust the Code of Discipline when the severities of the offense or mitigating circumstances dictate. Action taken under the prerogative must also meet the test of reasonableness and protection of the rights of students.

CONCLUSION

Student discipline is one area, which has a direct effect on the ability of the school to fulfill its purpose. Discipline is an area, which requires the attention and efforts of everyone – parents, students, teachers, administrators, and members of the School Committee. We urge all parents and students to make an effort to understand and comply with the rules of the school concerning student conduct and to cooperate with the school in carrying out disciplinary action taken by the school.

APPROVAL

All discipline codes have been approved by the South Hadley School Committee and are considered part of the policy of the South Hadley School Department.

Please refer to: South Hadley Public Schools Policy: JFC/JG/JGG Regarding Student Conduct and Discipline approval as revised March 3, 1998.

The South Hadley Public Schools may regulate student speech and assembly based upon legitimate educational needs, including, but not limited to the time, place, manner of student speech and assembly, and reasonable methods to insure substantial disruption to the learning process does not occur. "No expression made by students in the exercise of such rights shall be deemed to be an expression of school policy and no school official shall be held responsible in any civil or criminal action for any expression made or published by the students." For the purpose of this section, the word "student" shall mean any person attending the South Hadley Public Schools. The term "school official" shall mean any member or employee of the South Hadley School Committee.

INTERPERSONAL RELATIONSHIPS

The ideals of ethical behavior and integrity should permeate all inter-relationships in the South Hadley Public Schools. Parents/guardians, family members, community members, students, administrators, teachers, support staff, and other school personnel share an expectation that civility and respect should govern all relationships between school and non-school personnel. It is the policy of the South Hadley Public Schools that all school staff and non-school personnel, including students, shall treat each other with proper respect and dignity and communicate in a civil and humane manner. Students who violate this policy are subject to the disciplinary procedures as outlined in the *Code of Conduct and Discipline Policy* of the South Hadley Public Schools.

Staff members who violate this policy are subject to disciplinary procedures consistent with state law and contractual agreements. Non-school personnel who violate this policy may have their access to school buildings, events, or communication with school personnel limited, restricted, and/or withdrawn.

DISCIPLINARY PROCEDURES IN THE CLASSROOM

- A. Teachers are responsible for establishing standards of conduct within the classroom. They should use common sense to diffuse or stop situations, which interfere with the educational process. They need to recognize the individual differences of students. Teachers are strongly encouraged to refer students to guidance counselors when appropriate, as there may be underlying causes for a student's disruptive behavior.

In their attempts to effect student behavior, teachers are encouraged to utilize all school resources including guidance counselors, social workers, nurses, student support teachers, the teacher support team, other teachers, and administrators. Teachers should utilize these resources before situations need the attention of the principal or assistant principal.

Teachers are expected to contact parent(s)/legal guardian(s) and/or notify guidance counselors when appropriate to enhance communication between home and school.

There are some areas of discipline, which should remain in the classroom and be handled by the classroom teacher. These include, but are not limited to:

- Abusive language (e.g., yelling, swearing, et cetera)
- Cheating or plagiarism
- Disruptive behavior in class or hallway
- Lying
- Plagiarism
- Refusal to follow directions
- Roughhousing
- Tardiness to class
- Unprepared for class
- Use of items that cause disruption (e.g., electronics, food & drink, toys, et cetera.)

B. Students should not possess, openly wear, or display on their person nor operate any cell phone, laser pointer/gun, Walkman, iPod, radio, electronic games, et cetera in class or in the school buildings.

The use of lasers, laser locks, laser pens, laser pointers, or devices which project intensive light upon surfaces is not allowed on school grounds or in school buildings.

C. A student should only be sent to the administration for repeated offenses or serious disruptions.

D. Detention- When a student has persisted in a behavior contrary to this Discipline Policy, a teacher may assign the student a written warning, teacher lunch detention, teacher after-school detention or call the parents in for a conference. The student will be given twenty-four (24) hour notice before he/she must serve detention. This notice may only be waived by the mutual consent of both parties for students enrolled in grades 9 – 12; for students in grades K – 8, this notice may only be waived with parental consent. Teachers will not leave students unsupervised on school grounds.

Classroom teachers are encouraged to discuss with students the violation(s) of the Discipline Policy leading to the detention and alternative ways of reacting in similar situations. Multiple violations will result in the teacher contacting parents to discuss the situation.

53.10: In-School Suspension under Section 37H³/₄

1. The principal may use in-school suspension as an alternative to short-term suspension for disciplinary offenses.
2. The principal may impose an in-school suspension for a disciplinary offense under this provision, provided that the principal follows the process set forth in 603 CMR 53.10(3) through 603 CMR 53.10(5) and the student has the opportunity to make academic progress as set forth in 603 CMR 53.13(1).
3. The principal shall inform the student of the disciplinary offense charged and the basis for the charge, and provide the student an opportunity to dispute the charges and explain the circumstances surrounding the alleged incident. If the principal determines that the student committed the disciplinary offense, the principal shall inform the student of the length of the student's in-school suspension, which shall not exceed 10 days, cumulatively or consecutively, in a school year.

4. On the same day as the in-school suspension decision, the principal shall make reasonable efforts to notify the parent orally of the disciplinary offense, the reasons for concluding that the student committed the infraction, and the length of the in-school suspension. The principal shall also invite the parent to a meeting to discuss the student's academic performance and behavior, strategies for student engagement, and possible responses to the behavior. Such meeting shall be scheduled on the day of the suspension if possible, and if not, as soon thereafter as possible. If the principal is unable to reach the parent after making and documenting at least (2) attempts to do so, such attempts shall constitute reasonable efforts for purposes of orally informing the parent of the in-school suspension.

5. The principal shall send written notice to the student and parent about the in-school suspension, including the reason and the length of the in-school suspension, and inviting the parent to a meeting with the principal for the purpose set forth in 603 CMR 53.10(4), if such meeting has not already occurred. The principal shall deliver such notice on the day of the suspension by hand-delivery, certified mail, first-class mail, email to an address provided by the parent for school communications, or by other method of delivery agreed to by the principal and the parent.

IMPLEMENTATION OF THE DISCIPLINE CODE:

1. Student discipline is one area, which has a direct effect on the ability of the school to fulfill its purpose. Discipline is an area, which requires the attention and efforts of everyone – parents, pupils, teachers, administrator, and members of the School committee. We urge all parents and students to make an effort to understand and comply with the rules of the school concerning student conduct and to cooperate with the school in carrying out disciplinary action taken by the school.
2. The implementation of due process in disciplinary proceedings will be the responsibility of the faculty and school administration. Whoever presides over a hearing of a complaint against a student shall be obligated to follow the due process as set forth.
3. The building principal or the principal's designee shall be responsible for hearing all cases, which may result in a more serious penalty than detention. Depending on the seriousness of the offense, the principal or the principal's designee will determine the level of appropriate action to be taken.

A manifestation determination is conducted by the IEP team and must consider 1) evaluation and diagnostic results, 2) observations, and 3) the IEP and placement. Prior to a finding of "no manifestation", the IEP team must determine that: 1) the IEP/placement were appropriate; 2) supplementary aids and services were provided; 3) behavioral interventions were provided; and 4) the student understood his/her behavior and could control the behavior.

STUDENT WITH A DISABILITY: If a student has an IEP or if the South Hadley School Department and its staff has knowledge that a student may be a "student with a disability", then that student may assert the protections of a "student with a disability" until such time that a determination of no disability is made.

CODE OF CONDUCT

Each and every member of our school community has a responsibility to conduct him/herself in a manner, which demonstrates respect for the rights and property of others. Above all else, every individual must be ensured a learning environment which is physically, emotionally, and socially safe. This includes all curricular, co-curricular, and special events, both on and off campus, to and from school.

In an effort to clearly define expectations, we have identified four categories of unacceptable behavior, based on seriousness and consequences. We all share the responsibility to understand and support this standard of conduct and assist in its enforcement.

Teachers, support staff, students, and parents are expected to bring violations to the attention of the administration. The administration will interpret the rules and regulations and extend their application, in a manner consistent with their intent. *Every effort will be made to balance consistency with fairness and reason in the use of this code. The administration reserves the right to adjust the code of conduct when the severity of the offense dictates.* Action taken under this prerogative must always reflect reason and proper protection of individual rights.

Classroom and school staff, in accordance with the due process statements contained within the discipline policy, may impose the following consequences:

- After school detention (Parents must be notified at least one day in advance)
- Restorative justice if agreed upon by both the parent/guardian and administrator
- Loss of minor privileges
- In class timeouts

Administrative detention, parent conference, and internal suspension, represent preferred consequences for student accountability. However, behavior, which threatens others, violates the law or disrupts the environment for learning represent legitimate cause for student suspension or expulsion by an administrator.

Please note that each category of negative behaviors carries a range of consequences dependent upon the severity of violation, prior offenses and the well-being of everyone involved. NOTE: In cases where there is an offense not outlined in our Code of Discipline, reasonable

discretion will define consequences. The administration of the school has the right to enter a student's locker in the corridor or in the gymnasium area anytime there is a reasonable cause that the student may have in his/her possession a substance or equipment that may be a clear and present danger to the student or anyone else at Mosier School.

OTHER APPLICABLE CODES

STUDENT CONDUCT ON SCHOOL BUSES

State laws do not require transportation if the child's conduct jeopardizes the health and safety of others. In case of expulsion from the bus, the parent/guardian is responsible for the child's transportation to and from school. Failure to do so could result in legal proceeding in accordance with the attendance statutes of the General Laws of the Commonwealth of Massachusetts.

All children riding the buses must practice safety and conduct. Appropriate behaviors, which are expected in school, are also expected on the bus and at bus stops. Depending on the nature of the infraction, the principal may use administrative discretion to determine appropriate bus consequences. In addition to any consequences earned through inappropriate behaviors, incidents on the bus and/or at bus stops will include:

- First Offence: written notice or possible suspension from bus
- Second Offence: 1 day bus suspension
- Third Offence: 10 day bus suspension
- Fourth Offence: bus suspension for the remainder of the academic year

POSSESSION AND/OR USE OF ILLEGAL SUBSTANCE:

As required by the Education Reform Act, any student who is found to be in possession and/or using illegal substances (including tobacco and alcohol) is subject to suspension, and at the discretion of the principal and as provided for in law, recommended to the school committee for expulsion. In addition, the student must be assessed and counseled. The principal must file an incident report with the superintendent and the chief of police. By law, these consequences are invoked upon the first or any subsequent offense involving the possession and/or use of illegal substances.

Policy: JFCG/JFCH/JFCI

USE OF TOBACCO, ALCOHOL, AND DRUGS/CONTROLLED SUBSTANCES BY STUDENTS

In order to protect the health and safety of students, uphold state laws, and ensure that substance abuse not undermine the learning environment that is essential for quality education, there will be no tolerance for use of tobacco, alcohol, drugs, or other controlled/illegal substances on the property of the South Hadley Public Schools or at school-sponsored activities. The school system will provide a comprehensive program to educate students about the dangers of substance use, to be supportive of any student who is making an honest effort to fight a problem with addiction or is seeking help because of the problems of a friend or relative, and in cooperation with parents and the community, to promote efforts that prevent substance abuse. To emphasize that illegal substances have no place in our schools, the following policy will be strictly enforced. Students who participate in interscholastic athletics are advised that they are also bound by the chemical health rules of the Massachusetts Interscholastic Athletic Association.

VOLUNTARY ADMISSION OF PROBLEM WITH SUBSTANCE USE

The schools will offer assistance and support to students who voluntarily seek help for a problem with substance use. While the school will maintain confidential records of students who come forward seeking self-help support, school personnel will not impose discipline nor file a police report in such cases. Middle School students are still minors and it is the school's responsibility to inform parents that their child has voluntarily come forward for assistance. The student will be counseled regarding all community-based and school-sponsored services available. At all times, school personnel should encourage the student to confide in his/her parents. Prompt parent notification will occur.

USE OF TOBACCO

The use of tobacco products by students is expressly prohibited within the schools, on school grounds or school buses, and at school-related events, per state statute.

Disciplinary Action: The first offense will result in one full day of suspension. Repeated offenses will result in suspensions of up to and including ten (10) days and/or consideration of expulsion.

SUSPICION OF USE OF ALCOHOL, DRUGS, OR OTHER CONTROLLED/ILLEGAL SUBSTANCE

On the grounds of reasonable suspicion, school personnel will conduct an investigation. With reasonable grounds for suspecting that a violation of school policy or law has occurred, the school administrators have the legal right to search a student's property.

If the investigation does not provide concrete evidence but leaves some grounds for suspecting involvement with alcohol, drugs or other controlled/illegal substances, the following steps will be taken:

- a. If the student appears to be physically impaired:
 1. The school nurse will assess the student's condition and provide any emergency first aid that may be needed. If the situation warrants it, the student will be taken to the hospital for medical attention.
 2. Parents will be notified of the student's condition and asked to transport the student home. If a parent is unavailable, the police department will be asked to remove the student from the building.
- b. Parents will be notified of the suspicion.
- c. A conference with the student and parents will be conducted as soon as possible, generally by the next school day, to provide information about agencies and programs offering help with substance abuse.

If the investigation leads to concrete evidence of involvement with alcohol, drugs or other controlled/illegal substances, the following policy under use and/or possession shall apply.

USE AND/OR POSSESSION OF ALCOHOL, DRUGS, OR OTHER CONTROLLED/ILLEGAL SUBSTANCES AND PARAPHERNALIA:

The school department expressly forbids possession or use by students of alcohol products, drugs, and other controlled/illegal substances and paraphernalia within the schools, on school grounds or on school buses, and at any school-sponsored event.

Disciplinary Action:

- a. On first offense, the following steps may be taken:
 1. Any alcohol, drugs, other substances or paraphernalia found in the student's possession will be confiscated and may be turned over to the South Hadley Police Department for possible prosecution under the laws of the Commonwealth of Massachusetts.
 2. The student may be suspended from school for three - five (3-5) days.
 3. Those students who participate in extra-curricular activities will not be allowed to participate in the next two regularly scheduled games, performances, or group-sponsored activities, or for a period of two weeks, whichever is greater.
 4. Parents will be notified of the offense and disciplinary action in writing.
 5. Prior to re-entry to school, a conference will be held with the student and parents. The student will be clearly informed of the consequences of any subsequent offense.

- b. On second offense (except for subsequent offense during any one school year; see item c), the following actions will be taken:
 1. Any alcohol, drugs, other substances or paraphernalia found in the student's possession will be confiscated and may be turned over to the South Hadley Police Department for prosecution under the laws of the Commonwealth of Massachusetts.
 2. The student may be externally suspended from school for five to ten (5-10) days. Parents will be notified of the offense and disciplinary action in conference and written notice.
 3. The student, parents, principal and drug counselor or health educator will meet to discuss the student's degree of involvement in substance abuse and the best remedy for that involvement. A treatment plan which specified the nature and length of treatment and the consequences of failing to complete the approved plan will be developed. Implementation of the approved treatment plan will be a condition for the student's re-entry into school.
 4. Those students who participate in extra-curricular activities may not be allowed to participate for a period of six weeks from the date of the offense. Under no circumstances will a student be allowed to return to an athletic team, club or other extra-curricular activity during the same season in which the offense occurred. However, at the end of three weeks and with the continued compliance of the student with the approved treatment plan, the student may request permission to participate in one or more extra-curricular activities. The student's request will be considered by a committee consisting of the building administrator, a guidance counselor, and the advisor of the extra-curricular activity. The student has the right to appeal the committee's decision to the

superintendent.

- c. On second offense within one school year or third offense during a student's school career in South Hadley, the student may be externally suspended for ten to twenty 10-20 days, pending expulsion proceedings. All evidence and contraband found in the student's possession will be confiscated and turned over to the South Hadley Police Department for prosecution under the laws of the Commonwealth of Massachusetts.

SALE AND/OR DISTRIBUTION OF ALCOHOL, DRUGS, OR OTHER CONTROLLED/ILLEGAL SUBSTANCES AND PARAPHERNALIA:

The school department expressly forbids the sale, distribution or sharing of alcohol products, drugs, and other controlled/illegal substances and paraphernalia within the schools, on school grounds or on school buses, and at any school-sponsored event.

Disciplinary Action: The student will be externally suspended for ten to twenty (10-20) days, pending expulsion proceedings. All evidence and contraband found in the student's possession will be confiscated and turned over to the South Hadley Police Department for prosecution under the laws of the Commonwealth of Massachusetts.

In order that no substance abuse is even implied within the South Hadley Public Schools, this policy shall apply equally to so-called "look alike" drugs and any substance sold, procured or represented as a controlled or illegal substance.

Any paraphernalia that is not illegal but displayed on school property will be confiscated without disciplinary action and returned to the parent or guardian.

POSSESSION AND/OR USE OF WEAPONS:

The principal shall expel for a period of not less than one (1) year any student determined to have brought a firearm to school, pursuant to the Federal Gun Free Schools Act. Such expulsions are subject to review and possible modification on a case-by-case basis by the Superintendent.

As required by the Education Reform Act, any student who is found in possession of and/or using a dangerous weapon, other than a firearm, shall be subject to suspension, and at the discretion of the principal as provided for in law, recommendation to the school committee for expulsion. In addition, the student must be assessed and counseled. The principal must submit a written report to the superintendent, and if the principal chooses to invoke suspension rather than expulsion, the principal shall outline the reason for doing so. Per legal mandate, the superintendent must file an incident report with the school committee, the chief of police, and the Department of Social Services.

By law, these consequences are invoked on the first or any subsequent offense involving possession and/or use of dangerous weapons.

Massachusetts General Laws, Chapter 269, Section 10, states in part the following: Whoever, not being a law enforcement officer, and notwithstanding any license obtained by him/her, carries on his/her person a firearm as hereinafter defined, loaded or unloaded or other dangerous weapon in any building or on the grounds of any elementary or secondary school, without the written authorization of the board or officer in charge of such elementary or secondary school, shall be punished by a fine of not more than one thousand dollars or by imprisonment for not more than one year, or both. For the purpose of this paragraph "firearm" shall mean any pistol, revolver, rifle or smoothbore arm from which a

shot, bullet or pellet can be discharged by whatever means.

NONDISCRIMINATION

PROHIBITION OF SEXUAL HARASSMENT

The policy of the South Hadley School System is that all employees and students should be able to enjoy a work/school environment free from sexual harassment.

DEFINITION

Sexual harassment is a form of employee/student misconduct, which undermines the integrity of the educational mission of the South Hadley School Department. All employees/students must be allowed to work/learn in an environment free from unsolicited and unwelcome sexual overtures or conduct, either verbal or physical. Sexual harassment refers to behavior which is not welcome, which is personally offensive, which debilitates morale, and which, therefore, interferes with work effectiveness and individual learning. Sexual harassment in the workplace is prohibited by state and federal discrimination laws and is defined as follows:

sexual advances, requests for sexual favors, other verbal or physical conduct of a sexual nature when (a) submission to or rejection of such advances, requests or conduct is made either explicitly or implicitly a term or condition of employment or as a basis for employment decisions; (b) such advances, requests or conduct have the purpose or effect of unreasonably interfering with an individual's work performance; or (c) such advances, requests or conduct have the purpose or effect of creating an intimidating, hostile, humiliating or sexually offensive work environment.

Sexual harassment in the educational setting is also prohibited by law and is defined as follows with respect to students:

Sexual advances, requests for sexual favors and other verbal or physical conduct of a sexual nature when (a) submission to or rejection of such advances, requests or conduct is made either explicitly or implicitly a term or condition of the provision of the benefits, privileges or placement services or as a basis for the evaluation of academic achievement; or (b) such advances, requests or conduct have the purpose or effect of unreasonably intervening with an individual's education by creating an intimidating, hostile, humiliating or sexually offensive educational environment. □

M.G.L. Chapter 151C

The legal definition of sexual harassment is broad and in addition to the above examples, other sexually oriented conduct, whether it is intended or not, that is unwelcome and has the effect of creating a work place environment that is hostile, offensive, intimidating, or humiliating to male or female workers/students may also constitute sexual harassment.

While it is not possible to list all those additional circumstances that may constitute sexual harassment, the following are some examples of conduct, which if unwelcome, may constitute sexual harassment, depending upon the totality of the circumstances including the severity of the conduct and its pervasiveness:

- Unwelcome sexual advances - whether they involve physical touching or not;
- Sexual epithets, jokes, written or oral references to sexual conduct, gossip regarding one's sex life; comments on an individual's body, comment about and individual's sexual activity, deficiencies, or prowess;
- Displaying sexually suggestive objects, pictures, and cartoons
- Unwelcome leering, whistling, brushing against the body, sexual gestures, suggestive or insulting comments;
- Inquiries into one's sexual experiences; and
- Discussion of one's sexual activities.

DISCIPLINARY ACTION

If it is determined that inappropriate conduct has been committed by one of our employees/students, the administrator will take such action as is appropriate under the circumstances. In cases of sexual harassment by staff members, such action may range from counseling to termination from employment, and may include such other forms of disciplinary action, as we deem appropriate under the circumstances. Discipline of students shall follow the school's approved Code of Discipline.

COMPLAINT PROCEDURES

If any employee/student believes that he or she has been subjected to sexual harassment, the individual has the right to file a complaint with the school principal. If the principal is the subject of the alleged charge or the employee/student feels uncomfortable discussing the allegation with the principal, he/she may contact the Director of Student Services. The superintendent shall establish and maintain procedures for the investigation and resolution of complaints.

The Student Discipline Regulations were approved by the Board of Elementary and Secondary Education on April 29, 2014. They are effective July 1, 2014.

(1) Nothing in these regulations shall prevent a principal from removing a student from school temporarily when a student is charged with a disciplinary offense and the continued presence of the student poses a danger to persons or property, or materially and substantially disrupts the order of the school, and, in the principal's judgment, there is no alternative available to alleviate the danger or disruption. The principal shall immediately notify the superintendent in writing of the removal and the reason for it, and describe the danger presented by the student. The temporary removal shall not exceed two (2) school days following the day of the emergency removal, during which time the principal shall:

53.08: Principal's Hearing under Section 37H³/₄

(1) The principal shall determine the extent of the rights to be afforded the student at a disciplinary hearing based on the anticipated consequences for the disciplinary offense. If the consequence may be long-term suspension from school, the principal shall afford the student, at a minimum, all the rights set forth in 603 CMR 53.08(3) in addition to those rights afforded to students who may face a short-term suspension from school.

(2) Principal Hearing - Short-term Suspension

(a) The purpose of the hearing with the principal is to hear and consider information regarding

the alleged incident for which the student may be suspended, provide the student an opportunity to dispute the charges and explain the circumstances surrounding the alleged incident, determine if the student committed the disciplinary offense, and if so, the consequences for the infraction. At a minimum, the principal shall discuss the disciplinary offense, the basis for the charge, and any other pertinent information. The student also shall have an opportunity to present information, including mitigating facts, that the principal should consider in determining whether other remedies and consequences may be appropriate as set forth in 603 CMR 53.05. The principal shall provide the parent, if present, an opportunity to discuss the student's conduct and offer information, including mitigating circumstances, that the principal should consider in determining consequences for the student.

(b) Based on the available information, including mitigating circumstances, the principal shall determine whether the student committed the disciplinary offense, and, if so, what remedy or consequence will be imposed.

(c) The principal shall notify the student and parent of the determination and the reasons for it, and, if the student is suspended, the type and duration of suspension and the opportunity to make up assignments and such other school work as needed to make academic progress during the period of removal, as provided in 603 CMR 53.13(1). The determination shall be in writing and may be in the form of an update to the original written notice.

(d) If the student is in a public preschool program or in grades K through 3, the principal shall send a copy of the written determination to the superintendent and explain the reasons for imposing an out-of-school suspension, before the short-term suspension takes effect.

(3) Principal Hearing - Long-term Suspension

(a) The purpose of the hearing is the same as the purpose of a short-term suspension hearing.

(b) At a minimum, in addition to the rights afforded a student in a short-term suspension hearing, the student shall have the following rights:

1. In advance of the hearing, the opportunity to review the student's record and the documents upon which the principal may rely in making a determination to suspend the student or not;
2. the right to be represented by counsel or a lay person of the student's choice, at the student's/parent's expense;

5. the right to request that the hearing be recorded by the principal, and to receive a copy of the audio recording upon request. If the student or parent requests an audio recording, the principal shall inform all participants before the hearing that an audio record will be made and a copy will be provided to the student and parent upon request.

(c) The principal shall provide the parent, if present, an opportunity to discuss the student's conduct and offer information, including mitigating circumstances, that the principal should consider in determining consequences for the student.

(d) Based on the evidence, the principal shall determine whether the student committed the disciplinary offense, and, if so, after considering mitigating circumstances and alternatives to suspension as set forth in 603 CMR 53.05, what remedy or consequence will be imposed, in place of or in addition to a long-term suspension. The principal shall send the written

determination to the student and parent by hand-delivery, certified mail, first-class mail, email to an address provided by the parent for school communications, or any other method of delivery agreed to by the principal and the parent. If the principal decides to suspend the student, the written determination shall:

1. Identify the disciplinary offense, the date on which the hearing took place, and the participants at the hearing;
2. Set out the key facts and conclusions reached by the principal;
3. Identify the length and effective date of the suspension, as well as a date of return to school;
4. Include notice of the student's opportunity to receive education services to make academic progress during the period of removal from school as provided in 603 CMR 53.13(4)(a);
5. Inform the student of the right to appeal the principal's decision to the superintendent or designee, but only if the principal has imposed a long-term suspension. Notice of the right of appeal shall be in English and the primary language of the home if other than English, or other means of communication where appropriate, and shall include the following information stated in plain language:

a) the process for appealing the decision, including that the student or parent must file a written notice of appeal with the superintendent within five (5) calendar days of the effective date of the long-term suspension; provided that within the five (5) calendar days, the student or parent may request and receive from the superintendent an extension of time for filing the written notice for up to seven (7) additional calendar days; and that

b) the long-term suspension will remain in effect unless and until the superintendent decides to reverse the principal's determination on appeal.

(e) If the student is in a public preschool program or in grades K through 3, the principal shall send a copy of the written determination to the superintendent and explain the reasons for imposing an out-of-school suspension, whether short-term or long-term, before the suspension takes effect.

53.09: Superintendent's Hearing under Section 37H^{3/4}

(1) A student who is placed on long-term suspension following a hearing with the principal shall have the right to appeal the principal's decision to the superintendent.

(2) The student or parent shall file a notice of appeal with the superintendent within the time period set forth 603 CMR 53.08 (3) (c) 5.a). If the appeal is not timely filed, the superintendent may deny the appeal, or may allow the appeal in his or her discretion, for good cause.

(3) The superintendent shall hold the hearing within three (3) school days of the student's request, unless the student or parent requests an extension of up to seven (7) additional calendar days, in which case the superintendent shall grant the extension.

(4) The superintendent shall make a good faith effort to include the parent in the hearing. The superintendent shall be presumed to have made a good faith effort if he or she has made efforts to find a day and time for the hearing that would allow the parent and superintendent to participate. The superintendent shall send written notice to the parent of the date, time, and location of the hearing.

(5) The superintendent shall conduct a hearing to determine whether the student committed the disciplinary offense of which the student is accused, and if so, what the consequence shall be. The superintendent shall arrange for an audio recording of the hearing, a copy of which shall be

provided to the student or parent upon request. The superintendent shall inform all participants before the hearing that an audio record will be made of the hearing and a copy will be provided to the student and parent upon request.

(6) The student shall have all the rights afforded the student at the principal's hearing for long-term suspension under 603 CMR 53.08(3)(b).

(7) The superintendent shall issue a written decision within five (5) calendar days of the hearing which meets the requirements of 603 CMR 53.08(3)(c)1 through 5. If the superintendent determines that the student committed the disciplinary offense, the superintendent may impose the same or a lesser consequence than the principal, but shall not impose a suspension greater than that imposed by the principal's decision.

(8) The decision of the superintendent shall be the final decision of the school district, charter school, or virtual school, with regard to the suspension.

53.10: In-School Suspension under Section 37H³/₄

(1) The principal may use in-school suspension as an alternative to short-term suspension for disciplinary offenses.

(2) The principal may impose an in-school suspension for a disciplinary offense under this provision, provided that the principal follows the process set forth in 603 CMR 53.10(3) through 603 CMR 53.10(5) and the student has the opportunity to make academic progress as set forth in 603 CMR 53.13(1).

(3) The principal shall inform the student of the disciplinary offense charged and the basis for the charge, and provide the student an opportunity to dispute the charges and explain the circumstances surrounding the alleged incident. If the principal determines that the student committed the disciplinary offense, the principal shall inform the student of the length of the student's in-school suspension, which shall not exceed 10 days, cumulatively or consecutively, in a school year.

(4) On the same day as the in-school suspension decision, the principal shall make reasonable efforts to notify the parent orally of the disciplinary offense, the reasons for concluding that the student committed the infraction, and the length of the in-school suspension. The principal shall also invite the parent to a meeting to discuss the student's academic performance and behavior, strategies for student engagement, and possible responses to the behavior. Such meeting shall be scheduled on the day of the suspension if possible, and if not, as soon thereafter as possible. If the principal is unable to reach the parent after making and documenting at least (2) attempts to do so, such attempts shall constitute reasonable efforts for purposes of orally informing the parent of the in-school suspension.

(5) The principal shall send written notice to the student and parent about the in-school suspension, including the reason and the length of the in-school suspension, and inviting the parent to a meeting with the principal for the purpose set forth in 603 CMR 53.10(4), if such meeting has not already occurred. The principal shall deliver such notice on the day of the suspension by hand-delivery, certified mail, first-class mail, email to an address provided by the parent for school communications, or by other method of delivery agreed to by the principal and the parent.

53.11: Emergency Removal under Section 37H³/₄

The principal may remove a student from privileges, such as extracurricular activities and attendance at school-sponsored events, based on the student's misconduct. Such a removal is not

subject to the procedures in G.L. c. 71, § 37H³/₄ or 603 CMR 53.00.

53.12: Disciplinary Offenses under Section 37H or 37H¹/₂

(1) School districts shall adopt disciplinary policies and procedures applicable to a student who is accused of a disciplinary offense under G.L. c. 71, §§37H or 37H- ¹/₂. Such policies and procedures shall be consistent with the applicable statute and provide due process of law.

(2) The principal may remove a student who has committed a disciplinary offense under G.L. c. 71, §§37H or 37H¹/₂ from school for more than ninety (90) days in a school year.

(3) Any student who is removed from school for a disciplinary offense under G.L. c. 71, §37H or §37H¹/₂ shall have an opportunity to receive education services and make academic progress during the period of removal, as provided in 603 CMR 53.13.

53.13: Education Services and Academic Progress under Sections 37H, 37H¹/₂, and 37H³/₄

(1) Any student who is serving an in-school suspension, short-term suspension, long-term suspension, or expulsion shall have the opportunity to earn credits, as applicable, make up assignments, tests, papers, and other school work as needed to make academic progress during the period of his or her removal from the classroom or school. The principal shall inform the student and parent of this opportunity in writing when such suspension or expulsion is imposed.

(2) Any student who is expelled or suspended from school for more than ten (10) consecutive days, whether in school or out of school, shall have an opportunity to receive education services and make academic progress toward meeting state and local requirements, through the school-wide education service plan.

(3) The principal shall develop a school-wide education service plan describing the education services that the school district will make available to students who are expelled or suspended from school for more than ten (10) consecutive days. The plan shall include the process for notifying such students and their parents of the services and arranging such services. Education services shall be based on, and be provided in a manner consistent with, the academic standards and curriculum frameworks established for all students under G.L. c 69, §§ 1D and 1F.

(4) Notice of Education Services for Students in Long-Term Suspension and Expulsion; Enrollment Reporting.

(a) The principal shall notify the parent and student of the opportunity to receive education services at the time the student is expelled or placed on long-term suspension. Notice shall be provided in English and in the primary language spoken in the student's home if other than English, or other means of communication where appropriate. The notice shall include a list of the specific education services that are available to the student and contact information for a school district staff member who can provide more detailed information.

(b) For each student expelled or suspended from school for more than ten (10) consecutive days, whether in-school or out-of-school, the school district shall document the student's enrollment in education services. For data reporting purposes, the school shall track and report attendance, academic progress, and such other data as directed by the Department.

Regulatory Authority:

M.G.L. c. 71 § 38R and Chapter 77 of the Acts of 2013

READMISSION OF AN EXPELLED STUDENT

A student who has been expelled may apply to the Superintendent of schools for readmission into the school system. The Superintendent shall use one or more of the following criteria in making the determination to readmit a student who has been expelled from school:

1. The student has successfully completed a treatment program, which may include counseling or therapy.
2. The student agrees to a contract, which specifies expectations and consequences for failure to meet the expectations.
3. The student agrees to provide references from responsible adults attesting to his/her ability to appropriately participate in the school community.
4. The student agrees to continue counseling with a mutually agreeable counselor and/or meet regularly with an adult mentor as specified by the principal of the school.
5. The student successfully meets such other conditions specified by the principal and approved by the superintendent. These additional conditions will be established for the purpose of ensuring the safety and educational well being of the student, staff, and other students.

SEARCHES

LOCKERS/DESKS/COMPUTERS/CLOTHING – SEARCHES OF STUDENTS

Students may be issued lockers, with or without private combinations, desks, computers, clothing, et cetera, at the opening of school or thereafter. **STUDENTS SHOULD HAVE NO EXPECTATION OF PRIVACY IN THEIR SCHOOL LOCKERS, DESKS, COMPUTERS, CLOTHING, ET CETERA.** Lockers, desks, and computers are for the use of the students but remain the property of the South Hadley Public Schools.

Students are advised that their lockers, desks, computers, clothing, et cetera may be inspected without notice by school administrators to ensure cleanliness, safety and adherence to federal, state and local laws and regulations.

The legality of a search of a student, his/her clothing and/or possessions depends simply on the reasonableness, under all circumstances, of the search. The search by a school official is “justified at its inception” when there are reasonable grounds for suspecting that the search will turn up evidence that a student or students have violated either the law or the rules of the school. Such a search is permissible in its scope when the measures adopted are reasonably related to the objectives of the search and are not excessively intrusive in light of the age and sex of the student(s) and the nature of the infraction.

DISCIPLINARY ACTION RELATIVE TO SPECIAL NEEDS STUDENTS

Students with special needs, as defined by Massachusetts General Laws, Chapter 71B, shall be subject to the provisions of this Discipline Policy except as otherwise provided in this section.

Federal and Massachusetts laws, regulations and policies do not prohibit the suspension of special needs students in all cases. However, when it is permitted, the removal of a student from the program which is prescribed in his/her Individualized Educational Plan (IEP) must be preceded by a more deliberate review of the causes and reasons for the proposed suspension and the development of an alternative program, consistent with federal and state law.

With respect to the suspension of special needs students for ten (10) or more cumulative days, federal law (see 20 United States Code, Section 1415(k) requires parental consent, or where the parent(s)/legal guardian(s) does not consent, the securing of a judicial order authorizing the exclusion. (Note: There are exceptions for violations involving possession of dangerous weapons or controlled substances – see page __, following.)

With respect to the removal of students with special needs from public schools, Massachusetts General Laws, Chapter 71B, Section 3, states:

No School Committee shall refuse a school age child with special needs admission to or continued attendance in public school without the prior written approval of the Department of Elementary and Secondary Education (DESE) and without complying with the department's regulations and procedures for disciplining students with special needs, where applicable.

No child who is so refused or removed shall be denied an alternative form of education approved by the department, as provided for in section ten, through a tutoring program at home, through enrollment in an institution operated by a state agency, or through any other program which is approved for the child by the department.

Students identified as having a disability and provided with a Section 504 plan

1. Students are expected to meet the expectations for behavior identified in this handbook. A student on a Section 504 plan may be disciplined like any other non-disabled student. However, if the student is going to be suspended for ten (10) or more consecutive days, expelled or suspended for more than fifteen (15) cumulative days (and there is a change in placement as a result), then a manifestation determination review shall be conducted. The student's 504 team shall convene, and answer two questions, after reviewing relevant documents and the misconduct of the student.
 - a. Is the misconduct the result of failure to implement the student's 504 plan?
 - b. Is the misconduct caused by, or does it have a direct and substantial relationship to the student's disability?

A summary of the manifestation determination review will be written and a copy provided to the Parent(s)/guardian(s) as soon as possible after the review, but no later than five (5) school days after the review.

PROCEDURES APPLICABLE WHEN SUSPENSION(S) WILL ACCUMULATE TO MORE THAN TEN (10) DAYS IN THE SCHOOL YEAR.

The following provisions shall apply whenever a school administrator proposes to

suspend a student with special needs for more than ten (10) cumulative days in a school year.

DEFINITION OF SUSPENSION: Suspension shall be defined as any action, which results in the removal of a student from the program prescribed in his/her Individualized Educational Plan (IEP). The term includes in-school suspension as well as any exclusion from transportation services, which prohibits the student's participation in his/her prescribed program.

GENERAL REQUIREMENTS: Each school shall ensure that:

- a. Its Code of Conduct is on file with the Department of Elementary and Secondary Education and all student handbooks contain the specific procedures in these regulations for the suspension of a student with special needs
- b. It has an appropriate procedure to notify the Administrator of Special Education of the misconduct for which suspension of a student with special needs for more than ten (10) cumulative days is proposed so that the procedures required can be implemented consistently (See FORM 6);
- c. The number and duration of suspensions of students with special needs is recorded and maintained by school administrators
- d. The IEP of every student with special needs indicates whether the student is or is not expected to meet the school's discipline code, and, if not, what modifications of the code are required, which shall be described in the IEP; and
- e. No student with special needs may be suspended for more than ten (10) cumulative days in the school year except as provided hereunder.

MEETING TO REVIEW IEP WITH STUDENT'S SPECIAL NEEDS:

When it is known that the suspension(s) of a student with special needs will accumulate to ten (10) days in a school year, a review of the IEP will be conducted. Participants in the meeting shall include, but not be limited to, individuals who are trained in the area of the student's special needs. At that review, the review TEAM will determine whether the student's misconduct is a manifestation of the student's special needs, or results from an inappropriate special education program/placement or an IEP that was not fully implemented. Depending on the result of that determination, suspension may or may not be implemented. If the student has demonstrated repeated instances of dangerously assault or self-abusive behavior, an emergency evaluation and placement may be made with parental consent.

CIRCUMSTANCES UNDER WHICH THE STUDENT MAY NOT BE SUSPENDED FOR MORE THAN TEN (10) CUMULATIVE DAYS:

- a. If the TEAM concludes that the student's misconduct is related to the student's special needs or results from an inappropriate special education program

or placement or an IEP that was not fully implemented, the student shall not be suspended. Instead, the student's IEP shall be revised to reflect a new program or placement designed to meet the student's needs more effectively, or, if the misconduct resulted from an appropriate IEP that was not fully implemented, all necessary steps shall be taken by the school to ensure that the IEP is fully implemented. If revision of the student's IEP is required, development of an amended or new IEP shall occur

- b. If a new program or placement is designed for the student as a result of the review, the program or placement shall be implemented immediately following parental approval of the IEP. If the parent(s)/legal guardian(s) refuses consent to the IEP, the school or parent(s)/legal guardian(s) may request a hearing to determine the appropriateness of the program. Alternatively, the parties may seek mediation to resolve the dispute. If a hearing is requested, during the pendency of the hearing, the student shall remain in the last agreed upon educational placement (the placement in effect when the dispute arose), unless another placement is agreed upon by the school and the student's parent(s)/legal guardian(s), or a court order permits the school to change the student's placement based on a showing that the student's continued presence in school presents a substantial likelihood of injury to the student or to others.

CIRCUMSTANCES UNDER WHICH SUSPENSION MAY BE IMPOSED FOR MORE THAN TEN (10) CUMULATIVE DAYS:

- a. If the school wishes to impose a suspension which results in more than ten (10) cumulative days of suspension in the school year, and the TEAM concludes that: the student's misconduct is not a manifestation to the student's special needs; is not the result of an inappropriate special education program/placement; and the current IEP was fully implemented, the school shall:
 - 1. Provide an interim alternative plan for the delivery of special education services to the student during the period of the suspension, which shall be referred to as "the alternative plan"
 - 2. Before the student is suspended for more than ten (10) cumulative days, present the interim alternative plan to the student's parent(s)/legal guardian(s) along with the required written notice.
- b. A copy of the interim alternative plan must be included in the student's file, which shall also include documentation, which demonstrates that:

1. The school has complied with procedures required by Goss v. Lopez and by the school's Code of Conduct.
2. The school has considered less restrictive disciplinary measures, including modifying the student's IEP to set out specific methods of discipline;
3. The disciplinary action is for a stated and limited number of days
4. The action is necessary in light of the needs of the student and other students in the school
5. The school administrators have conferred with appropriate special education staff as to the disciplinary action and have followed all the procedures outlined herein including notice to the parent(s) or guardian(s) of their right of appeal.

COURT ORDER NECESSARY TO AUTHORIZE SUSPENSION:

A school shall not suspend or exclude a student for more than ten (10) cumulative days during the pendency of a Bureau of Special Education Appeals hearing or judicial proceeding brought to challenge a suspension, proposed suspension, or any determination, above, unless the school obtains a court order authorizing a temporary change of the child's educational placement based on a showing that the student's continued presence in school presents a substantial likelihood of injury to the student or to others.

PLEASE NOTE THE FOLLOWING STATUTORY REQUIREMENTS UNDER FEDERAL

LAW:

Section 1415(k) of the Individuals with Disabilities Education Act (hereinafter, "IDEA"), codified as 20 U.S.C. §1415(k), sets forth the following procedures with respect to the suspension of students with special needs (and protections for those children not yet eligible for special education and related services):

(k) *Placement in alternative educational setting*

- (1) *Authority of school personnel*
- (A) School personnel may order a change in the placement of a child with a disability –
 - (i) to an appropriate interim alternative setting, another setting, or suspension, for not more than 10 school days (to the extent such alternatives would be applied to children without disabilities); and
 - (ii) to an appropriate interim alternative educational setting for the same amount of time that a child without a disability would be subject to discipline, but for not more than 45 days if –
 - (I) the child carries a weapon to school or to a school function under the jurisdiction of a state or local educational agency; or

- (II) the child knowingly possesses or uses illegal drugs or sells or solicits the sale of a controlled substance while at school or a school function under the jurisdiction of a state or local educational agency.
- (B) Either before or not later than 10 days after taking a disciplinary action described in subparagraph (A) –
 - (i) if the local educational agency did not conduct a functional behavioral assessment and implement a behavioral intervention plan for such child before the behavior that resulted in the suspension described in subparagraph (A), the agency shall convene an IEP meeting to develop an assessment plan to address that behavior, or
 - (ii) if the child already has a behavioral intervention plan, the IEP Team shall review the plan and modify it, as necessary, to address the behavior.
- (2) *Authority of hearing officer*
 A hearing officer under this section may order a change in the placement of a child with a disability to an appropriate interim alternative educational setting for not more than 45 days if the hearing officer –
 - (A) determines that the public agency has demonstrated by substantial evidence that maintaining the current placement of such child is substantially likely to result in injury to the child or to others;
 - (B) considers the appropriateness of the child’s current placement
 - (C) considers whether the public agency has made reasonable efforts to minimize the risk of harm in the child’s current placement, including the use of supplementary aids and services; and
 - (D) determines that the interim alternative educational setting meets the requirements of paragraph (3)(B).
- (3) *Determination of setting*
 - (A) *In general*
 The alternative educational setting described in paragraph (1)(A)(ii) shall be determined by the IEP Team.
 - (B) *Additional requirements*
 Any interim alternative educational setting which a child is placed under paragraph (1) or (2) shall:
 - (i) be selected so as to enable the child to continue to participate in the general curriculum, although in another setting, and to continue to receive those services and modifications, including those described in the child’s current IEP, that will enable the child to meet the goals set out in that IEP; and
 - (ii) Include services and modifications designed to address the behavior described in paragraph (1) or paragraph (2) so that it does not recur.
- (4) *Manifestation determination review*
 - (A) *In general*
 If a disciplinary action is contemplated as described in paragraph (1) or paragraph (2) for a behavior of a child with a disability described in either of those paragraphs, or if a disciplinary action involving a change of placement for more than 10 days is

contemplated for a child with a disability who has engaged in other behavior that violated any rule or code of conduct of the local educational agency that applies to all children

- (i) not later than the date on which the decision to take that action is made, the parents shall be notified of that decision and of all procedural safeguards accorded under this section; and
 - (ii) Immediately, if possible, but in no case later than 10 school days after the date on which the decision to take that action is made, a review shall be conducted of the relationship between the child's disability and the behavior subject to the disciplinary action.
- (B) *Individuals to carry out review*
A review described in subparagraph (A) shall be conducted by the IEP Team and other qualified personnel.
- (C) *Conduct of review*
In carrying out a review described in subparagraph (A), the IEP Team may determine that the behavior of the child was not a manifestation of such child's disability only if the IEP Team –
- (i) first considers, in terms of the behavior subject to disciplinary action, all relevant information, including –
 - (I) Evaluation and diagnostic results, including such results or other relevant information supplied by the parent of the child;
 - (II) Observations of the child; and
 - (III) The child's IEP and placement; and
 - (ii) Then determines that –
 - (I) In relationship to the behavior subject to disciplinary action, the child's IEP and placement were appropriate and the special education services, supplementary aids and services, and behavior intervention strategies were provided consistent with the child's IEP and placement.
 - (II) The child's disability did not impair the ability of the child to understand the impact and consequences of the behavior subject to disciplinary action; and
 - (III) The child's disability did not impair the ability of the child to control the behavior subject to disciplinary action.
- (5) *Determination that behavior was not manifestation of disability*
- (A) *In general*
If the result of the review described in paragraph (4) is a determination, consistent with paragraph (4)(C), that the behavior of the child with a disability was not a manifestation of the child's disability, the relevant disciplinary procedures applicable to children without disabilities may be applied to the child in the same manner in which they would be applied to children without disabilities; except as provided in Sec. 1412(a)(1).
- (B) *Additional requirement*
If the public agency initiates disciplinary procedures applicable to all children, the agency shall ensure that the special education and disciplinary records of the child with a disability are transmitted for consideration by the person or persons making

the final determination regarding the disciplinary action.

(6) *Parent appeal*

(A) *In general*

- (i) If the child's parent disagrees with a determination that the child's behavior was not a manifestation of the child's disability or with any decision regarding placement, the parent may request a hearing.
- (ii) The state or local educational agency shall arrange for an expedited hearing on any case described in this subsection when requested by a parent.

(B) *Review of decision*

- (i) In reviewing a decision with respect to the manifestation determination, the hearing officer shall determine whether the public agency has demonstrated that the child's behavior was not a manifestation of such child's disability consistent with the requirements of paragraph (4)(C).
- (ii) In reviewing a decision under paragraph (1)(A)(ii) to place the child in an interim alternative educational setting, the hearing officer shall apply the standards set out in paragraph (2).

(7) *Placement during appeals*

(A) *In general*

When a parent requests a hearing regarding a disciplinary action described in paragraph (1)(A)(ii) or paragraph (2) to challenge the interim alternative educational setting or the manifestation determination, the child shall remain in the interim alternative educational setting pending the decision of the hearing officer or until the expiration of the time period provided for in paragraph (1)(A)(ii) or paragraph (2), whichever occurs first, unless the parent and the state or local educational agency agree otherwise.

(B) *Current placement*

If a child is placed in an interim alternative educational setting pursuant to paragraph (1)(A)(ii) or paragraph (2) and school personnel propose to change the child's placement after expiration of the interim alternative placement, during the pendency of any proceeding to challenge the proposed change in placement, the child shall remain in the current placement (the child's placement prior to the interim alternative educational setting), except as provided in subparagraph (C).

(C) *Expedited hearing*

- (i) If school personnel maintain that it is dangerous for the child to be in the current placement (placement prior to removal to the interim alternative education setting) during the pendency of the due process proceedings, the local educational agency may request an expedited hearing.
- (ii) In determining whether the child may be placed in the alternative educational setting or in another appropriate placement ordered by the hearing officer, the hearing shall apply the standards set out in paragraph (2).

(8) *Protections for children not yet eligible for special education and related services*

(A) *In general*

A child who has not been determined to be eligible for special education and related services under this part and who has engaged in behavior that violated any rule or code of conduct of the local educational agency, including any behavior described in paragraph (1), may assert any of the protections provided for in this part if the local educational agency had knowledge (as determined in accordance with this paragraph) that the child was a child with a disability before the behavior that precipitated the disciplinary action occurred.

(B) *Basis of knowledge*

A local educational agency shall be deemed to have knowledge that a child is a child with a disability if –

- (i) The parent of the child has expressed concern in writing (unless the parent is illiterate or has a disability that prevents compliance with the requirements contained in this clause) to personnel of the appropriate educational agency that the child is in need of special education and related services.
- (ii) The behavior or performance of the child demonstrates the need for such services.
- (iii) The parent of the child has requested an evaluation of the child pursuant to Sec. 1414; or
- (iv) The teacher of the child, or other personnel of the local educational agency, has expressed concern about the behavior or performance of the child to the director of special education of such agency or to other personnel of the agency.

(C) *Conditions that apply if no basis of knowledge*

(i) *In general*

If a local educational agency does not have knowledge that a child is a child with a disability in accordance with subparagraph (B) prior to taking disciplinary measures against the child, the child may be subjected to the same disciplinary measures as measures applied to children without disabilities who engaged in comparable behaviors consistent with clause (ii).

(ii) *Limitations*

If a request is made for an evaluation of a child during the time period in which the child is subject to disciplinary measures under paragraph (1) or (2), the evaluation shall be conducted in an expedited manner. If the child is determined to be a child with a disability, taking into consideration information from the evaluation conducted by the agency and information provided by the parents, the agency shall provide special education and related services in accordance with the provisions of this part, except that, pending the results of the evaluation, the child shall remain in the educational placement determined by school authorities.

(9) *Referral to and action by law enforcement and judicial authorities*

(A) Nothing in this part shall be construed to prohibit an agency from reporting a crime committed by a child with a disability to appropriate authorities or to prevent state law enforcement and judicial authorities from exercising their responsibilities with regard to the application of federal and state law to crimes committed by a child with a disability.

(B) An agency reporting a crime committed by a child with a disability shall ensure that copies of the special education and disciplinary records of the child are transmitted

for consideration by the appropriate authorities to which it reports the crime.

(10) *Definitions*

For the purposes of this subsection, the following definitions apply:

(A) *Controlled substances*

The term ‘controlled substance’ means a drug or other substance identified under schedules I, II, III, IV, or V in Sec. 202(c) of the Controlled Substances Act (21 U.S.C. 831(c)).

(B) *Illegal drug*

The term ‘illegal drug’ means a controlled substance; but does not include such a substance that is legally possessed or used under the supervision of a licensed health care professional or that is legally possessed or used under any other authority or Act or under any other provision or federal law.

(C) *Substantial evidence*

The term ‘substantial evidence’ means beyond a preponderance of the evidence.

(D) *Weapon*

The term ‘weapon’ has the meaning given the term ‘dangerous weapon’ under paragraph (2) of the first subsection (g) of Sec. 930 of Title 18, United States Code. Title 18 U.S.C. §930, paragraph (2) of the first subsection (g) provides:

“The term ‘dangerous weapon’ means a weapon, device, instrument, material, or substance, animate or inanimate, that is used for, or is readily capable of causing death or serious bodily injury, except that such term does not include a pocket knife with a blade less than 2 ½ inches in length.”

IDEA: The Individuals with Disabilities Education Act

All states receive federal money under the Individuals with Disabilities Education Act, also known as IDEA, and must provide a *free appropriate public* education to all *eligible* children with disabilities. No child can be found eligible for special education until an evaluation has been done, which is completed by the staff in the school district upon signed parental approval.

Special education is a way for your child to have the supports and services he or she needs in order to learn. Special education is not a "place" but a way for your child to be educated, as much as possible, with children who do not have disabilities. You can get more information about the IDEA from: **Federation for Children with Special Needs**, 95 Berkeley Street, Suite 104, Boston, MA 02116, (617) 482-2915 (Voice/TTY), 1-800-331-0688 (Massachusetts only), Fax: (617) 695-2939. Section 504 of the Rehabilitation Act of 1973

Section 504 of the Rehabilitation Act of 1973 prohibits discrimination against qualified disabled individuals. Under Section 504, qualified disabled students who are not eligible for special education under the IDEA may be eligible for related services, accommodations, assistive technology and/or auxiliary aids and devices in order to fully participate in the programs offered by the South Hadley Public Schools. In addition, all disabled students who qualify for special education also are protected by Section 504 of the Rehabilitation Act of 1973. All programs must be accessible to children with disabilities (e.g., academic and non-academic programs, after-school-care programs for students).

- A. **Section 504 Definition:** A qualified disabled student under Section 504 has a mental or physical impairment, cosmetic disfigurement and/or a chronic disease which substantially limits one or more major life activities; or had a record of such an impairment; or is regarded as having such an impairment and who is eligible to participate in the programs(s) offered by the District.
- B. **Eligibility:** A diagnosis is not enough in order to be eligible under Section 504. A team of knowledgeable individuals must meet and determine:
1. Is there a physical or mental impairment present?
 2. Does the impairment result in a substantial limitation of a major life activity?

Examples of Major Life Activities:

- | | |
|--------------|----------------------------|
| 1. Self-care | 2. Performing manual tasks |
| 3. Walking | 4. Seeing |
| 5. Hearing | 6. Speaking |
| 7. Breathing | 8. Learning |
| 9. Reading | 10. Other |

- C. **Eligibility Process:**
1. A referral can be made by anyone including administrators, teachers, parents, or agencies.
 2. Once a student is referred, the District must complete an evaluation. The purpose of a 504 evaluation is to determine if the child is eligible under Section 504, and if so, what related services, accommodations, assistive technology and/or auxiliary aids/devices would provide the student with a free appropriate public education.

3. Once the evaluation is completed, a team of individuals knowledgeable about the student and the disability is convened and the team determines eligibility and what the student requires in order to receive FAPE. The decision of the team is outlined in writing on a Section 504 plan.
4. The 504 plan is reviewed on a yearly basis. A reevaluation is completed upon request of the parent/guardian, prior to a change in placement, and when there has been a material change in the student. A reevaluation should be completed periodically as determined by the 504 team.

Parent/Guardian/Student Rights in Identification, Evaluation and Placement (Section 504 of the Rehabilitation Act of 1973)

The following is a description of the rights granted by federal law to students with disabilities. The intent of the law is to keep you fully informed concerning decisions about your child and to inform you of your rights if you disagree with any of these decisions.

You have the right to:

1. Have your child take part in and receive benefits from the public education programs without discrimination because of his/her disabling condition(s).
2. Have the school district advise you of your rights under federal law.
3. Receive notice with respect to identification, evaluation, or placement of your child.
4. Have your child receive a free appropriate public education. This includes the right to be educated with non-disabled students to the maximum extent appropriate. It also includes the right to have the school district make reasonable accommodations, and/or receive auxiliary aids/devices, or related services as to allow your child an equal opportunity to participate in school and school-related activities.
5. Have your child educated in facilities and receive services comparable to those provided non-disabled students.
6. Have evaluation, educational, and placement decisions made based upon a variety of information sources, and by persons who know the student, the evaluation data, and placement options.
7. Have your child be given an equal opportunity to participate in non-academic and extracurricular activities offered by the district.
8. Examine all relevant records related to decisions regarding your child's identification, evaluation, educational program and placement.
9. Obtain copies of educational records at a reasonable cost unless the fee would effectively deny you access to the records.
10. Request amendment of your child's educational records if there is reasonable cause to believe that they are inaccurate or misleading. If the school district refuses this request for amendment, it shall notify you within a reasonable time, and advise you of the right to appeal.
11. File a local grievance and have your grievance heard at various levels of the grievance procedure.
12. Request mediation or an impartial due process hearing related to decisions or actions regarding your child's identification, evaluation, educational program or placement in the event that the grievance procedure had led to a decision with which you disagree. You and the student may take part in the hearing and have an attorney represent you.

If you know a child with a disability who requires related services, accommodations, assistive technology and/or auxiliary aids and devices in order to receive a free appropriate public education or to access the programs and facilities of the District, you should speak with the coordinator at your school to identify which process or law would be best suited to addressing the child's needs.

Coordinators:

Plains School:	Hank Skala, Principal
Mosier School:	David Gallagher, Assistant Principal
Middle School:	Vinnie Napoli, Interim Principal
High School:	Diana Bonneville, Principal

You can also contact the Office for Civil Rights (OCR) at 1-800-872-5327 or www.ed.gov/about/offices/list/ocr/index.html for publications regarding this issue. Their address is:

What is the Difference between Section 504 and IDEA?

Section 504 is intended to establish a “level playing field” usually by eliminating barriers that exclude persons with disabilities, whereas IDEA is remedial, often requiring provision of programs and services in addition to those available to persons without disabilities. Section 504 precludes hurdles (physical or programmatic). The district’s DCAP (District Accommodation Plan) is a document that provides staff and parents with a multitude of ways to implement a 504. Please ask your building for a copy of the DCAP.

The definition of a disability under Section 504 is much broader than the definition under IDEA. Not all students with disabilities are entitled to services under IDEA.

To determine whether a student’s learning is substantially limited, schools need to consider more than the student’s grades. Both academic and nonacademic activities need to be considered. Examples of student who may be protected by Section 504 are those with: communicable diseases, temporary disabilities arising from accidents or hospitalizations, allergies or asthma, drug addiction, and/or environmental mental illness.

The Americans With Disabilities Act and Your Civil Rights

The Americans with Disabilities Act (ADA) is another very important law for people with disabilities and their families. Title II prohibits discrimination in:

- employment;
- public transportation;
- services provided by state and local governments;
- services and accommodations offered by private businesses; and
- telecommunications.

The goal of the ADA is to remove the barriers that deny individuals with disabilities an equal opportunity to share in and contribute in American life. The law is about participation and access to the kind of opportunities that persons without disabilities enjoy. For example, under the ADA, restaurants, theaters, childcare centers, schools, and other community resources cannot refuse to serve your child or family solely because your child or a family member has a disability. The ADA also applies to states and local school districts.

There are many booklets and other materials to help families understand their rights under the ADA. Contact the **Americans with Disabilities (ADA) Information Line**, 1-800-514-0301, TTY: 1-800-514-0383; or Ms. Kathleen Boyden, Director of Student Services, for more information.

Civil Rights and Issues of Harassment (Title IX)

If at any time in your participation in the South Hadley Public Schools you believe that you have been discriminated against or harassed, please follow the grievance procedure described below.

- The complaint will be in writing and contain information about the alleged discrimination such as name, address, phone number of complainant and location, date, and description of the problem. Alternative means of filing complaints such as personal interviews or a tape recording of the complaint will be made available for persons with disabilities upon request.
- The complaint should be submitted by the grievant and/or his/her designee as soon as possible but not later than 60 calendar days after the alleged violation, and sent to the Title IX coordinator, Ms. Kathleen Boyden, 413-538-5072, 116 Main Street, South Hadley, Mass, 01075.
- Within 15 calendar days after receipt of the complaint, the ADA Coordinator, Ms. Boyden, will meet with the complainant to discuss the complaint and possible resolutions. Within 15 calendar days after the meeting, Ms. Boyden will respond in writing, and where appropriate, in a format accessible to the complainant, such as large print, Braille, etc. The response will explain the position of the South Hadley Public Schools and offer options for substantive resolution of the complaint.
- If the response by Ms. Boyden does not satisfactorily resolve the issue, the complainant and/or his/her designee may appeal the decision of the ADA coordinator within 15 calendar days after the receipt of the response to the Superintendent of Schools.
- Within 15 calendar days after receipt of the appeal, the Superintendent will meet with the complainant to discuss the complaint and possible resolutions. Within 15 calendar days after the meeting, the Superintendent will respond in writing, and where appropriate, in a format accessible to the complainant.

PHYSICAL RESTRAINT OF STUDENTS

Maintaining an orderly, safe environment conducive to learning is an expectation of all staff members of the school district. Further, students of the district are protected by law from the unreasonable use of physical restraint. Such restraint shall be used only in emergency situations as a last resort and with extreme caution after other lawful and less intrusive alternatives have failed or been deemed inappropriate.

When an emergency situation arises, and physical restraint is the only option deemed appropriate to prevent a student from injuring himself or herself, another student or school community member, a teacher or employee or agent of the school district who has received the necessary training may use such reasonable force needed to protect students, other persons or themselves from assault or imminent, serious, physical harm.

Physical restraint shall be administered in a manner to prevent or minimize any harm to the student as a result of the use of physical restraint and must take into consideration any known medical or psychological limitations, known or suspected trauma history, and/or behavioral intervention plans regarding the use of physical restraint on an individual student.

Any use of physical restraint shall end as soon as the student is no longer an immediate danger to him/herself and/or others. During the restraint a staff member must continuously monitor the physical status of the student, including skin temperature and color, and respiration. If at any time during a physical restraint the student expresses or demonstrates significant physical distress such as difficulty breathing, the student shall be released from the restraint immediately, and steps shall be taken to seek medical assistance.

If a student is restrained for a period longer than twenty (20) minutes, program staff shall obtain the approval of the principal or his/her designee in the principal's absence. Principal approval shall be based upon the student's continued agitation during the restraint justifying the need for continued restraint.

The definitions of forms of restraint shall be as defined in 603 CMR 46.02.

The use of mechanical restraint, medical restraint, and seclusion is prohibited.

Physical restraint, including prone restraint where permitted under 603 CMR 46.03, shall be considered an emergency procedure of last resort and shall be prohibited except when a student's behavior poses a threat of assault, or imminent, serious, physical harm to themselves and/or others and the student is not responsive to verbal directives or other lawful and less intrusive behavior interventions are deemed inappropriate.

The Superintendent will develop procedures identifying:

- Appropriate responses to student behavior that may require immediate intervention;
- Methods of preventing student violence, self-injurious behavior, and suicide including crisis planning and de-escalation of potentially dangerous behaviors among groups of students or individuals;
- Descriptions and explanations of alternatives to physical restraint as well as the school's method of physical restraint for use in emergency situations;
- Descriptions of the school's training and procedures to comply with reporting requirements including, but not limited to, making reasonable efforts to orally notify a parent of the use of restraint within 24 hours of its imposition, and sending a report to parent/guardians within three (3) school days;
- Procedures for the student and parents/guardians to respond to the use of physical restraint, as well as the content of the report in writing and/or verbally;

- Procedures ensuring that the parents/guardians receive information concerning the physical restraint in a language other than English if the parents/guardians receive other school-related information in a language other than English;
- Procedures for receiving and investigating complaints;
- Methods for engaging parents in discussions about restraint prevention and use of restraint solely as an emergency procedure;
- A statement prohibiting: medication restraint, mechanical restraint, prone restraint unless permitted by 603 CMR 46.03(1)(b), seclusion, and the use of physical restraint in a manner inconsistent with 603 CMR 46.00;
- A process for obtaining principal approval for a time out exceeding thirty (30) minutes.
- A procedure for reviewing the incident with the student to address the behavior preceding the use of the restraint and an analysis of the circumstances leading up to the administration of the restraint.

Physical restraint is prohibited as a means of punishment, or as a response to destruction of property, disruption of school order, a student's refusal to comply with a school rule or staff directive, or verbal threats that do not constitute a threat of imminent, serious physical harm to the student or others.

Physical restraint is prohibited when it is medically contraindicated for reasons including, but not limited to, asthma, seizures, a cardiac condition, obesity, bronchitis, communication-related disabilities, or risk of vomiting.

Physical restraint may not be used as a standard response. No written behavioral or individualized educational program (IEP) may include the use of physical restraint as a standard response to any behavior.

The use of "time out" procedures during which a staff member continually observes the student and remains accessible to the student shall not be considered "seclusion restraint."

Each building principal will identify staff members to serve as a school-wide resource to assist in ensuring proper administration of physical restraint. These staff members will participate in an in-depth training program in the use of physical restraint.

In addition, each staff member will be trained regarding the school's physical restraint policy and accompanying procedures. The principal will arrange training to occur in the first month of each school year, or for staff hired after the beginning of the school year, within a month of their employment.

The principal shall perform weekly and monthly reviews of the use of physical restraints and take appropriate action based upon such reviews.

All injury reports and annual data concerning the use of physical restraint shall be submitted to the Department of Elementary and Secondary Education in a manner and form directed by the Department.

This policy and its accompanying procedures shall be reviewed and disseminated to staff annually and made available to parents of enrolled students. The Superintendent shall provide a copy of the Physical Restraint regulations to each principal, who shall sign a form acknowledging receipt thereof.

MUTUAL RESPECT

COMMITMENT

In the spirit of collegiality and to promote open and effective dialogue, the South Hadley Public School District is committed to creating and sustaining a safe, caring, respectful professional environment for all employees and families. We will treat all members of our community with civility and respect in an inclusive environment with the goal of supporting responsible behavior in the workplace. Key words that represent our actions and our words are kindness, dignity, responsibility and professionalism. The School Committee expects that in collaboration with employees and families, each school will develop an atmosphere that promotes mutual respect in support of a positive and productive work environment.

VIOLATIONS OF MUTUAL RESPECT

Examples of the kinds of behavior that do not foster a safe and respectful work environment include:

- a. causing physical or emotional harm, isolation, or damage to his/her property;
- b. creating an unwelcoming or hostile environment for another person;
- c. infringing on the rights of another person at school;
- d. materially and substantially disrupting the orderly operation of a school;
- e. humiliating or intimidating behaviors or language that would be deemed obviously inappropriate behavior to a third party.

PROCEDURES

Step 1:

The adults directly involved will meet informally to come to a resolution on the given issue. Involved individuals, if applicable, have the right to request union representation. All parties have the right to request a neutral third party to mediate the discussion.

If Step 1 is unable to resolve the concern, the matter would move to Step 2.

Step 2:

Any party who is involved in the concern has the right to bring the matter to the attention of his or her immediate supervisor within ten (10) school days after the Step 1 meeting has occurred. At that time all relevant notes or written perspectives on the issue will be shared with the immediate supervisor, if applicable.

File: GBEBD

Step 3:

If the matter is not resolved in Step 2 within ten (10) school days, the concerned party has the right to make a formal complaint using the district's complaint process.

The district's responsibility is to investigate the matter in the written complaint, normally within ten (10) calendar days, assuming school is in session. If the matter involves the immediate supervisor, the next professional in the organizational chart will be responsible for investigating the matter.

All parties recognize that the goal is to resolve mutual respect concerns successfully for all parties at the lowest level possible. Thus, this process is not normally considered disciplinary in nature. However, under some circumstances disciplinary action may be necessary, at which time all parties reserve their respective rights to due process per the appropriate union contract.
