

South Hadley Racial Justice Task Force

The South Hadley School Committee is looking for interested students, parents, teachers and community members to join the **Racial Justice Task Force**.

The mission of the task force is to inform the School Committee in the coming months and years on what racism in South Hadley resembles at home, in the community and in the schools. We hope to delve into learning about white privilege and racism, however, we expect that the task force, once formed, will also endeavor to tackle a range of related topics. This task force will be part of a larger effort to move toward a more diverse and inclusive South Hadley.

Please email Allyson Garcia and Kyle Belanger with a brief statement on why you are interested in being a member of the task force.

After the group is formed, we will reach out about a first meeting and from there, the task force will decide as a group on how often to meet (virtually) and where the focus will be in beginning this extremely important work.
